

USING THIS GUIDE

Print this guide with page scaling set to 100%. To ensure that the page has printed correctly, place a ruler and measure against the printed ruler below. Make sure that the measurements match.

Please note that wider ring bands may feel tighter. Going up half a size is recommended for a more comfortable fit.

Measure your finger at the end of the day when fingers tend to be larger. This will ensure that your ring will fit comfortably.

CHECK THE SIZE OF YOUR PRINTED PAPER

Place your ruler on the bar above to check that it has printed 100% to scale. It should be exactly 50mm long.

Please note that if the measurement is not correct, your ring size measurements will not be accurate.

3 WAYS TO FIND YOUR RING SIZE

MAKING YOUR OWN STRING SIZER

- Take a piece of string or strip of paper. Don't use something that will stretch, like a rubber band.
- Cut the piece of string or paper and wrap it around the widest part of the finger you will be wearing the ring on. Ensure that it fits well.
- Take a pen and mark the point where the paper overlaps.
- Lay it flat and in millimeters measure the length of the paper from the end to the marked point.
- Use the Ring Size Conversion Chart provided below to find the ring size.

USING OUR PRINTABLE SIZER

- Print and cut out the ring sizer provided below. Cut along the line to make a slit.
- Slip the pointed end into the slit and place the ring sizer around the widest part of the finger you intend to wear the ring on.
- Ensure that the numbers are on the outer edge and clearly visible to you.
- Pull the pointed end so that the band is snug against your finger.
- Note the number that lines up with the slit. This is your ring size.
- If it falls in between sizes, choose the larger size.

USING A RING YOU ALREADY OWN

- Take a ring that you already own, which fits the finger you're purchasing the ring for.
- Place the ring over the size circles provided below and match the inside of the ring to one of the circles.
- If the ring is in between two sizes, order the larger size.

RING SIZE CONVERSION CHART

The following measurements correspond with the inner circumference of the matching ring size.

Size 3 44.2 mm	Size 3.5 45.5 mm	Size 4 46.8 mm	Size 4.5 48 mm	Size 5 49.3 mm	Size 5.5 50.6 mm	Size 6 51.9 mm
Size 6.5 53.1 mm	Size 7 54.4 mm	Size 7.5 55.7 mm	Size 8 57 mm	Size 8.5 58.3 mm	Size 9 59.9 mm	
Size 9.5 60.8 mm	Size 10 62.1 mm	Size 10.5 63.4 mm	Size 11 64.6 mm	Size 11.5 65.9 mm	Size 12 67.2 mm
